PROFILE

I'm reaching out to express my enthusiasm for the Software Engineer Intern position at your esteemed company. I admire how your organization not just keeps pace with technological evolution but often outpaces it, crafting solutions that seem to be a step ahead of tomorrow. This resonates deeply with my own approach to development, where I see technology not just as a tool, but as a canvas for creating something impactful. As a third-year student in Computer Science and Engineering, I'm eager to apply my skills and passion to contribute to your company's innovative projects.

EDUCATION

B.E. CSE Chitkara University, Punjab	2021 – 2025
XII (CBSE) SGGGS Collegiate Public School, Chandigarh	2019 – 2021
X (CBSE) Bhavan Vidyalaya, Panchkula	2019

SKILLS

Programming

Java, C/C++

Front End Web Development

HTML, CSS, JS, Bootstrap, React.js

Back End Development

Node.js, Express.js, REST APIs

Databases

MySQL, MongoDB

Tools

Git, Postman, Firebase, VS Code
